

DIGITAL GRAIN MOISTURE METER MC7821

APPLICATION: Widely used for fast and accurate measurement of moisture in the process of allotment, acquisition, storage, machining of packed grains, Feedstuff, Foodstuff etc.

FEATURES:

- Display: 4 digits, 10mm LCD
- Operating Temperature & Humidity: 0°C to 50°C, ≤85%
- Grains: Paddy, Rice, Corn, Wheat
- Low Battery: Indicated
- Button Function: 2 Buttons 1) Rice, Paddy, Wheat, Corn 2) off, %H₂O, Temp
- Display Size: 47 X 20 mm
- Measuring Probe Size: 350mm
- Product Dimension: 178 x 68 x 39mm
- Power supply: 4x1.5V AA (UM-3) battery
- Weight: About 280g (not including measuring probe and batteries)
- Accessories: Carrying Case, Instruction Manual, Measuring Probe

SPECIFICATION:

BASIC FUNCTION	RANGE
Measurement range:	Moisture content: 8 to 20%
	Temperature -10°C to 55°C
Resolution:	0.1
Accuracy:	Moisture: ±1%
	Temperature: ±0.8°C
