SOCKET TESTER SC09

APPLICATION: Mextech SC09 is a user-friendly, ergonomically designed socket tester that simplifies electrical testing work. It can be used to test the power socket standards for level indicators, ideal for first-level indication for testing standard mains sockets.

FEATURES:

- Rated Voltage Un=220V~250V(AC)
- Trip-out current: IΔn=30mA
- 20 data groups storage
- Bright LED indicators clearly display wiring status
- Modern, ergonomic design for comfortable use
- Compact, durable, and built for long-lasting performance
- Effortless operation: simply plug it in for automatic testing
- Detects faults such as missing earth, live earth reversal, live neutral reversal, and missing neutral connections
- RCD Test Button
- Power On and Storage Button

SPECIFICATION:

RCD Current	> 30mA
Testing Voltage Range	30V ~ 250V / 50 ~ 60 Hz
N-E Voltage	0.1V ~ 10V
Working Temperature	0°C ~ 40°C
Working Humidity	20% ~ 75% RH
Storage Temperature Humidity	-10°C ~ 50°C
Storage Humidity	20% ~ 80% RH
Power Supply	CR2032 3VX2
RCD Working Voltage	220v +/-22v
Product Size	100 x 82 x 65 mm
Display Size	40 x 40 mm
Weight	About 94g

Accessories:

Instruction Manual, 2 pcs 2032 3V batteries.
